Medizinal Biscuit PROVISIONAL SPECIFICATION.

### Improvements in Biscuits.

I EDWARD FRANCIS COATES late of 28 Market Hill, Sudbury in the County of Suffolk but now of The London Bakery High Street Shanklin Isle of Wight, Baker and Confectioner do hereby declare the nature of this invention to be as follows:—

5 The object of my invention is to incorporate with the biscuits such drugs or chemicals as are prepared for use for medicinal and other similar purposes. In carrying out my invention I add the drugs or the chemical or chemicals during the process of mixing the materials to form the biscuits.

10 For instance; in the manufacture of "anti-constipation" biscuits I add the fluid extract of cascara sagrada (with certain other ingredients, added to disguise the nauseous flavor,) to the flour or meal or other material of which the biscuits are chiefly composed. By the use of my invention the nauseous flavor of the drugs or chemicals is greatly diminished, thus rendering medicines more pleasant to the taste and more readily consumed.

15 Dated this Twenty-seventh day of February 1895.

EDWARD FRANCIS COATES.

### COMPLETE SPECIFICATION.

#### Improvements in Biscuits.

20 I EDWARD FRANCIS COATES late of 28 Market Hill Sudbury in the County of Suffolk but now of The London Bakery, High Street Shanklin Isle of Wight, Baker and Confectioner do hereby declare the nature of this invention and in what manner the same is to be performed, to be particularly described and ascertained in and by the following statement:—

25 The object of my invention is to incorporate with the biscuit certain chemicals prepared for use for medicinal and other similar purposes. According to my invention I add the chemical or chemicals during the process of mixing the materials to form the biscuits.

The following biscuits are prepared according to my invention:—

30 Anti-constipation Biscuits:—Each biscuit weighing half an ounce contains—fluid extract of cascara sagrada 8 minims, fluid extract of liquorice 4 minims with aromatic tincture 12 minims:—

Flour or meal 8 ounces, butter 3 ounces egg 2 ounces sugar 3 ounces forms the batter with which the above ingredients are mixed.

35 Digestive Biscuits:—Each biscuit weighing 3 drachms, contains:—Prepared cascara extract 4 minims papain 1 grain benzonaphthol 2 grains with batter the same as that used in the preparation of the anti-constipation biscuits.

Phenacetine Biscuits:—Each biscuit weighing 3 drachms contains:—Phenacetine 5 grains, citrate of caffeine half a grain with batter, the same as that used in the preparation of the anti-constipation biscuits before mentioned.

40 Children's Stamina Biscuits:—Each biscuit contains:—Hypophosphite of
